

## Testimonials

“Michelle is not just a Hair Angel, she is an angel! My daughter got lice a week before she was supposed to be the flower girl in my sister's wedding. I thought we would have to back out of one of the most important days for our family. The Hair Angels saved the day! We all made it to the wedding and had a wonderful time, thanks to the immediate, professional and thorough job they did.”

★  
Jill, Pasadena, CA

“As a working mom with three children, I was devastated when our school called to say they had to be picked up for head lice. I needed help, so I called The Hair Angels. They were so friendly and quickly put us all at ease. I will recommend them to everyone I know!”

★  
Kathy, Orinda, CA

“I never thought I would have to deal with lice, so when my son got it, I panicked! A friend told me about The Hair Angels. I called them and they scheduled an appointment immediately. Hilary was so sweet, and gentle with my son and most importantly she got rid of the lice!”

★  
Kim, San Diego, Ca

## How Can I Prevent This From Happening Again?

- ★ Comb every day using a metal, nit comb.
- ★ Don't share brushes, combs, hats, or helmets.
- ★ Place brushes, combs, & hair accessories into a bag & put them in the freezer for 24 hours.
- ★ Wash all clothing & bedding used within the last 24 hours.
- ★ Vacuum floors, upholstered furniture, & auto interiors.
- ★ Style your hair into a bun. Swinging hair offers a bridge to infestation.
- ★ Spray The Hair Angels mint enzyme on your hair before leaving the house.
- ★ Make head checks a part of your monthly routine. Early detection is the most important step in stopping the spread of lice.
- ★ Notify your child's school & any friends they may have been in contact with.

# Lice Lowdown

## Facts

- ★ Head lice can't jump or fly; they can only crawl.
- ★ Head lice is transmitted through direct head to head contact.
- ★ Nits (lice eggs) can't hatch off of a human head.
- ★ Lice bugs can't survive off of a human head for more than 48 hours.
- ★ Most lice are resistant to over-the-counter, chemical treatments. These products are designed to kill bugs, not nits.
- ★ Mint and tea tree oil are effective scents for repelling head lice.
- ★ Having head lice is not a sign of poor hygiene. Lice actually prefer clean hair.
- ★ Head lice does not live on pets.
- ★ Head lice is the #1 reason for school absences.

# About The Angels

The Hair Angels® provides a fast, effective & guaranteed treatment for the removal of head lice. With years of experience, we've helped thousands of families win their battle against head lice.
